LEGAL RETAINER SERVICES

Long-term legal companion – Proactive risk prevention – Supporting sustainable business growth

Legal counsel accompanying businesses in every commercial decision

Do Businesses Truly Need Regular Legal Counsel?

 Ongoing legal issues arise, but maintaining a costly in-house legal department is not cost-effective.

 Commercial decisions and contracts are signed before comprehensive risks can be properly evaluated.

 Complications in labor, corporate governance, tax, licensing & compliance arise on a daily basis.

 Seeking legal counsel only after disputes arise leads to exorbitant costs and complicated resolution procedures.

Core Message

Effective legal management is not just about resolving disputes after they occur, but more importantly, **identifying & controlling risks** before they become a burden to the enterprise.
